

• APP Pack Tape Packing tape

High quality one-sided adhesive tape made of durable PP film and rubber-based adhesive widely used in securing parcels and bonding of various types of packaging. It has a very good adhesion properties.

Tapes work well in both hot and cold conditions. PP medium and rubber-based adhesive (solvent) ensures fast bonding to many types of surfaces. By using natural rubber and PP film the tape has improved heat-resistance. Scope of application -30°C to 60°C.

ADVANTAGES:

- increased strength,
- available in two colors - brown and transparent,
- increased tensile strength,
- increased heat resistance of -30°C to +60°C,
- durable application,
- high bonding strength of uneven surfaces,
- ideal for manual application.

APP No. 070040, 070041

PRODUCT SPECIFICATIONS	
Medium	BOPP*
Adhesive	natural rubber (solvent)
The tensile strength	130 +/- (N/mm ²)
The elongation at break	140 +/- 30 (%)
Adhesion to steel	5 +/- 1 (N/25 mm)
Medium thickness	25 +/-1 (mic)
Medium color	transparent
Color of adhesive	brown, transparent
Roll width	48 mm
Roll length	60 m

****BOPP** Biaxially oriented polypropylene film - longitudinally and transversely stretched in the production process for reaching better technical parameters (increase longitudinal and transverse tensile strength).
