

NTools DP PEN

Air Pen

APP No. 388016

NTools DP PEN is a very precise nozzle provided with air flow control for blowing purposes. It enables quick and precise cleaning of surfaces and hard-to-reach areas.

Nozzle provides blowing to clean the surface or element before painting. May also be used for point-to-point blowing.

Made from aluminium to offer durability, low weight and ergonomic shape.

Provided with metal clip for fixing the nozzle e.g. to the pocket of overall or working clothing.

Air outlet diameter.

3mm

Design :
